

2017 Northeast Oncology Conference

Conférence du Nord-Est sur l'oncologie 2017

True North Trajectory

Highlighting Excellence in Patient Centered Cancer Care in the North

Friday, November 10, 2017

Holiday Inn

1696 Regent Street, Sudbury, ON

The conference brings together clinicians, researchers and leaders to highlight current developments in each stage of the cancer journey. We will use this conference as a platform to strengthen connections to improve patient outcomes in Northeastern Ontario.

CONFERENCE OBJECTIVES

This conference aims to:

1. Identify emerging cancer care issues across the cancer journey.
2. Examine evidence-based best practices in the management of cancer patients.
3. Describe Northeast Cancer Centre Programs and Services allowing North East Ontario cancer patients' access to complex speciality care closer to home.

WHO SHOULD ATTEND

This conference is targeted to family physicians, nurse practitioners, surgical, medical and radiation oncologists, registered nurses, pharmacists, researchers, radiation therapists, allied health professionals, medical learners and all health care disciplines with an interest in oncology.

ACCREDITATION

This Group Learning program meets the certification criteria of the College of Family Physicians of Canada and has been certified by the Continuing Education and Professional Development Office at the Northern Ontario School of Medicine for up to **6.00 Mainpro+ credits**. Claiming your credits: Please submit your credits for this activity online at www.cfpc.ca/login. Please retain proof of your participation for six (6) years in case you are selected to participate in credit validation or auditing.

This event is an Accredited Group Learning Activity (**Section 1**) as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada, approved by the Continuing Education and Professional Development Office at the Northern Ontario School of Medicine for up to **6.00 hour(s)**.

AGENDA

FRIDAY, NOVEMBER 10, 2017

07:45 - 08:30	Registration and Breakfast Holiday Inn Hotel 1696 Regent Street Sudbury, Ontario
08:30 - 08:40	Welcome and Opening Remarks Mark Hartman, MRT(T), MBA, CHE Vice President – Regional Cancer & Clinical Support Services, Health Sciences North, Northeast Cancer Centre Regional Vice President, Cancer Care Ontario
08:40 - 09:00	Patient Story Paulette Lalancette Patient and Family Advisor, Northeast Cancer Centre At the end of this session, participants will be able to: <ul style="list-style-type: none">• Describe a patient’s journey through the cancer care process.• Identify some of the resources patients’ utilize throughout their cancer care journey.• Describe the role of Immunotherapy treatment options in the treatment of Melanoma
09:00 - 09:40	Managing Depression and Fear of Recurrence in Cancer Patients Dr. Mark Katz, MD, FRCPC Provincial Head of Psychosocial Oncology – Cancer Care Ontario At the end of this session, participants will be able to: <ul style="list-style-type: none">• Identify the Cancer Care Ontario Evidence Based Guidelines for Depression “The Management of Depression in Patients with Cancer.”• Identify patient’s depression during diagnosis/treatment/survivorship and fear of recurrence.• Examine the role of pharmacology for depression in oncology populations.• Discuss the etiology of depression in the oncology population.
09:40 - 10:05	Lung Cancer Screening for People at High Risk Dr. Michael Loreto, MD, FRCPC North East Regional Cancer Imaging Clinical Lead, Northeast Cancer Centre At the end of this session, participants will be able to: <ul style="list-style-type: none">• Describe the evidence, benefits, and harms for lung cancer screening for people at high risk and apply it to the Ontario context.• Identify people who can be referred for screening.• Outline the steps of the screening pathway in Cancer Care Ontario’s Lung Cancer Screening Pilot for People at High Risk.
10:05 - 10:30	Fecal Immunochemical Testing (FIT) for Colorectal Cancer Dr. Amanda Hey, MD, CFPC Regional Primary Care Lead, Health Sciences North At the end of this session, participants will be able to: <ul style="list-style-type: none">• Discuss the burden of colorectal cancer (CRC) in Ontario.• Identify FIT characteristics and efficacy for those at average risk.• Examine FIT introduction and application in other jurisdictions and how it may apply to Ontario.
10:30 - 11:00	REFRESHMENT BREAK
11:00 - 11:20	Introduction to Immunotherapy Dr. Pablo Cano, MD, FRCPC Medical Oncologist, Northeast Cancer Centre At the end of this session, participants will be able to: <ul style="list-style-type: none">• Discuss the evolution of immunotherapy treatment from inception to current state.• Identify the role of immunotherapy in cancer treatment.• List characteristics of cancers that are appropriate for immunotherapy.

AGENDA

FRIDAY, NOVEMBER 10, 2017 - continued

11:20 - 11:45

Immunotherapy at the Northeast Cancer Centre

Dr. Lacey Pitre, MD, FRCPC

Medical Oncologist, Northeast Cancer Centre

At the end of this session, participants will be able to:

- Describe the current protocols for patients receiving immunotherapy at the Northeast Cancer Centre.
- Identify which cancers are appropriate for immunotherapy.
- Identify contraindications and side effects of immunotherapy treatment.

11:45 - 12:15

Radiation Therapy for Localized Prostate Cancer: A Review of Established and Emerging Treatments

Dr. Ryan Carlson, MD, FRCPC

Radiation Oncologist, Northeast Cancer Centre

At the end of this session, participants will be able to:

- Identify the role of radiation therapy in the management of prostate cancer.
- Describe the current protocols or techniques for patients receiving radiation treatments at the Northeast Cancer Centre.
- Describe ways to support patients treated with radiation for prostate cancer in their community.

12:15 - 1:00

LUNCH

13:00 - 13:45

Interventions to Improve the Sexual Health of Cancer Patients: An Interdisciplinary Approach

Dr. Carole Mayer, Ph.D, RSW

Director of Research, Regional Clinical Psychosocial Oncology, Symptom Management and Person Centred Care Lead
Supportive Care Program, Northeast Cancer Centre

At the end of this session, participants will be able to:

- Provide evidence that supports the need to address sexuality with people affected by cancer.
- Review the Cancer Care Ontario Evidence Based Guidelines "Interventions to Address Sexual Problems in People with Cancer" and its application to clinical practice.
- Describe how sexuality can be addressed in clinical settings.

13:45 - 14:30

Breast Cancer Reconstruction Surgery: Indications and Options

Dr. Amanda Fortin, MD, FRCPC

Plastic Surgeon, Health Sciences North

At the end of this session, participants will be able to:

- Identify appropriate breast cancer patients for breast reconstruction.
- Describe three main types of breast reconstruction.
- Recall the breast cancer surveillance recommendations following breast reconstruction.

14:35 - 15:15

Concurrent Sessions 1

Please see the complete list of concurrent session choices on page 4 of the program.

15:15 - 15:25

BREAK

15:25 - 16:05

Concurrent Sessions 2

Please see the complete list of concurrent session choices on page 5 of the program.

16:05 - 16:15

Conference Wrap-up and Evaluations

CONCURRENT SESSIONS

ROOM	14:35 - 15:15	
	14:30 - 14:55	14:55 - 15:15
TBD	<p>Human Papillomavirus Testing in Ontario: Present and Future</p> <p>Dr. Jennifer Jocko, M.D, FRCPC Regional Cervical Screening and Colposcopy Clinical Lead</p> <p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Describe the rationale for recommended best practices for delivery of colposcopy services in Ontario. Define exit criteria needing to be met before discharge from colposcopy to primary care, and role of HPV testing. Indicate the future role of primary HPV testing in cervical cancer screening. 	
TBD	<p>Tobacco Intervention in Oncology</p> <p>Dr. Debbie Saunders, BSc.,DMD, CTE, FACD, FIAOO, FICD, FADI Medical Director, Department of Dental Oncology Medical Lead, Clinical Tobacco Intervention Services, North East Cancer Centre, Health Sciences North Assistant Professor, Northern Ontario School of Medicine Faculty, Centre for Addictions and Mental Health, TEACH Project</p> <p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Identify the impact of continued tobacco use in cancer with respect to radiation therapy, surgery, and chemotherapy. Describe the process of intervention by using the three A's of intervention. Describe the tobacco intervention services and research at the Northeast Cancer Centre. 	<p>Oral Care Management</p> <p>Dr. Debbie Saunders, BSc.,DMD, CTE, FACD, FIAOO, FICD, FADI Medical Director, Department of Dental Oncology Medical Lead, Clinical Tobacco Intervention Services, North East Cancer Centre, Health Sciences North Assistant Professor, Northern Ontario School of Medicine Faculty, Centre for Addictions and Mental Health, TEACH Project</p> <p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Explain that oral complications are the most commonly cited side effect in cancer therapy. Identify that oral care is fundamental and the responsibility of all health care professionals in cancer therapy. Describe the CCO symptom management guide to oral care.
TBD	<p>Traditional and Western Medicine</p> <p>Dr. Annelind Wakegijig, M.D, CCFP Regional Aboriginal Cancer Lead, Baawaating Family Health Team</p> <p>Rose Pitawanawkat, BSW Aboriginal Coordinator, Northeast Cancer Centre</p> <p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Describe some of the similarities and differences between Western Medicine and Traditional Medicine. Identify some of the practical challenges in providing cancer care in First Nations. Discuss the importance of Healers in provision of cancer care. 	

CONCURRENT SESSIONS

ROOM	15:25 - 16:05	
	15:25 - 15:45	15:45 - 16:05
TBD	<p>Breast Cancer Reconstruction Surgery: The Patient Experience</p> <p>Dr. Amanda Fortin, MD, FRCPC Plastic Surgeon, Health Sciences North</p> <p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Recall the patient narrative of their breast reconstruction. Visualize three main types of breast reconstruction. Integrate patient values about breast reconstruction options. 	
TBD	<p>Complementary and Alternative Medicine (CAM) Use in Cancer Care</p> <p>Dr. Carly Buckner, Ph.D. Research Associate, Health Sciences North Research Institute</p> <p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Describe the range of CAM therapies. Discuss CAM use in patients at NECC. Identify the impact of diagnosis on CAM use. 	<p>Mucositis (Galera)</p> <p>Dr. Debbie Saunders, BSc.,DMD, CTE, FACD, FIAOO, FICD, FADI Medical Director, Department of Dental Oncology Medical Lead, Clinical Tobacco Intervention Services, North East Cancer Centre, Health Sciences North Assistant Professor, Northern Ontario School of Medicine Faculty, Centre for Addictions and Mental Health, TEACH Project</p> <p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Describe the pathophysiology of oral mucositis and its impact in cancer therapy. Recommend the application of superoxide dismutase mimetics in the treatment of oral mucositis. Discuss future directions for treatment and prevention of oral mucositis.
	<p>Strengthening Research in Health Care and Health Services in Northern Ontario: The ICES North Satellite</p> <p>Dr. Michael Conlon, Ph.D. Director of Epidemiology Outcomes & Evaluation Research, Northeast Cancer Centre</p> <p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Describe the role of the Institute for Clinical Evaluative Sciences (ICES) Northern data access and analysis facility. Illustrate, through examples, use of administrative data to address health services questions. Identify where opportunities exist for research collaboration. 	<p>Response Guided Therapy</p> <p>Dr. Amadeo Parissenti, Ph.D. Affiliate Scientist, Health Sciences North Research Institute</p> <p>At the end of this session, participants will be able to:</p> <ul style="list-style-type: none"> Describe the ability of various distinct chemotherapy agents and radiation to induce ribosomal RNA degradation (RNA disruption) in tumour cells. Demonstrate an association between high tumour RNA disruption and both pathologic complete response and increased disease-free survival in breast cancer patients undergoing neoadjuvant chemotherapy. Explore potential benefits to patient care using response-guided therapies.

2017 Northeast Oncology Conference

Conférence du Nord-Est sur l'oncologie 2017

VENUE

If you require overnight accommodation for this event, please contact:

HOLIDAY INN

1696 Regent Street
Sudbury ON
Tel: 705-522-3000
www.hisudbury.ca

CONFERENCE FEES

Physicians:
\$150.00 CAD
Nurses, Nurse Practitioners, Allied Health Professionals and Members of the Public:
\$100.00 CAD
