Public Health Immunization Education Series

Back to the Basics: What You Should Know Before Immunizing

Program Description

This session will highlight the history of the disease prior to vaccination. There will be discussion surrounding the differences between live versus inactivated vaccines. This session will describe the immunogenicity and serconversion following vaccination, different routes of vaccine administration and the appropriate site of vaccine administration along with the common myths associated with vaccination.

Wednesday, September 1, 2010
12 noon to 1:00 p.m. EST

Objectives

By the end of the program, participants will be able to:

1. Identify the effect of vaccine programs on the resurgence of vaccine preventable diseases.
2. Describe T-cell mediated induced immunity by vaccination.
3. Apply clinical immunization knowledge to practice and reduce the burden of vaccine preventable diseases.

Presenters

Rhonda Sawyer is the Interprofessional Education (IPE) Co-Lead for Confederation College, Professor of Nursing and currently involved in the evaluation of the interprofessional initiative within the School of Health and Community Services.

Justeen Mansourian is a Professor in Native Child and Family Services program within Negahneewin College and IPE Co-Lead at Confederation College.

The presentation will be held at NOSM's East Campus (HSERC Room 109) in Sudbury and video linked to NOSM's West Campus, (BSC 1014) in Thunder Bay and through the Ontario Telemedicine Network (OTN). Tune in on the web and email your questions during the event by going to www.nosm.ca.
