Technology and Information Management Support (TIMS)

Moodle Learning Management System: What it can do

Date: September 28, 2010

12:00 p.m. to 1:00 p.m. EST

NOSM East Campus: HSERC 109
NOSM West Campus: ATAC 6022

***** This is a face-to-face, OTN videoconference and live webcast event. *****

Program Description

Brought to you by the Technology and Information Management Support (TIMS) unit, this session, part 2 of a previously offered session, aims to provide participants with the opportunity to experiment with the tools adopted for the UME Program and explore other potential application of Moodle for all interested programs/units.

Objectives

By the end of the program, participants will be able to:

1. Experiment with the tools adopted for the UME program.
2. Identify the tools available to users in the UME program.
3. Discuss other potential applications of Moodle.
4. Experiment with other tools available in Moodle.
5. Develop skills to increase teaching and facilitation strategies.

Presenters

Nicole Cardinal–OCT, M.A., is a Senior Instructional Designer with the Technology and Information Management Support (TIMS) unit at the Northern Ontario School of Medicine. She has been part of the team that has designed the Undergraduate Medical Education program at NOSM for the past 6 years. In her previous employment, she designed courses and provided faculty support within programs in several disciplines and worked as an Ontario Certified Teacher.

Tim Dube –B.A. (Hons.), M.A., is a Curriculum Instructional Designer with the Technology and Information Management Support (TIMS) unit at the Northern Ontario School of Medicine. He is part of the team committed to providing ongoing pedagogical support in the planning, development, and implementation of teaching and learning initiatives (i.e. Undergraduate Medical Education). Tim is also a 2nd year student in the Interdisciplinary PhD Program in Rural and Northern Health at Laurentian University.
