2025: Vision

1. Integrated
   - FRs need to have good communication skills
   - Where the incident is happening
   - Every community has a vehicle on site when needed

2. Cultural
   - Systematic
   - Sustainable
   - Standardized
   - Quality
   - Capacity
   - Keeping up with changes in health care is a big challenge!

3. Pre-nursing station care across communities
   - Managing expectations
   - Quality assurance
   - Looking for a standard model for the North

4. Innovative
   - Community: four trained, equipped paramedics
   - It will be fully implemented

5. Knowledgeable
   - Strong leadership
   - Champion
   - Community-based
   - Driving
   - Reflect the general spiritual health of the community
   - Respond to the needs of the community

Pre-nursing station care is culturally appropriate

Training
- Demonstrated recognition
- Bridged gaps
- Consistent funding
- Sustainability
- Training would meet the needs of the community
