

## Community-engaged, distributed education model

3 principal sites (Sudbury, Sault Ste. Marie, and Thunder Bay)

84 affiliation agreements

90+ preceptors per year

Average 20 communities per year

15 community visits per year

### 40 Communities (2008-2017)

- |              |                |                    |
|--------------|----------------|--------------------|
| Atikokan     | Iroquois Falls | Owen Sound         |
| Barrie       | Kapuskasing    | Parry Sound        |
| Blind River  | Kenora         | Penetanguishene    |
| Bracebridge  | Kirkland Lake  | Sault Ste. Marie   |
| Cochrane     | Little Current | Sioux Lookout      |
| Collingwood  | Matheson       | Sturgeon Falls     |
| Cutler       | Marathon       | Sudbury            |
| Dryden       | Midland        | Temiskaming Shores |
| Elliot Lake  | Moose Factory  | Thunder Bay        |
| Espanola     | New Liskeard   | Timmins            |
| Fort Frances | Nipissing      | Toronto            |
| Geraldton    | North Bay      | Wasaga Beach       |
| Gravenhurst  | Orillia        |                    |
| Huntsville   | Ottawa         |                    |

### Outstanding Research

**65 research projects | 60+ unique advisors**

- Clinical (40%)
- Public Health Unit (37%)
- Aboriginal Health Access Centre (6%)
- NODIP/NOSM (17%)

Proportion of projects by practice setting

### Empowered Preceptors

**283**  
Preceptors

**40**  
are  
NODIP Graduates

**23**  
are  
NOSM Faculty

### Publications and Presentations

NODIP interns, graduates, and staff have more than 30 accepted publications, presentations, and a book chapter. Journals include *Infant Child and Adolescent Nutrition*, *Canadian Journal of Dietetic Practice and Research*, *Rural and Remote Health*, and *Applied Physiology Nutrition and Metabolism*. Presentations have been delivered across Ontario, Canada, and internationally.

### Advisory Groups

More than 30 Registered Dietitians from all practice settings have supported NODIP's Curricular Planning and Program Evaluation Advisory Groups over the last 10 years. They play key roles in advising on programming and resource needs, quality assurance, and meeting accreditation standards.

### No Ordinary Dietetic Internship Program

Since 2007, NODIP has demonstrated a commitment to improving the health of Northern communities. Graduates are trained by dedicated preceptors and committed organizations. Upon completion of their program, NODIP graduates work in diverse practice settings, serving their communities in different ways.
