

DIVISION OF HUMAN SCIENCES SEMINAR SERIES

The cognition of clinical reasoning: historical perspective and future direction

Dr. Sandra Monteiro

Assistant Professor, Department of Health Research
Methods, Evidence and Impact, McMaster University

Thursday, October 11, 2018
12:00 p.m. – 1:00 p.m.

Sandra Monteiro is Assistant Professor with the Department of Health Research Methods, Evidence and Impact at McMaster University. Sandra has a PhD in Cognitive Psychology. As an education research scientist with MERIT, her program of research encompasses clinical competence and patient safety. Her current focus is on the development of clinical reasoning skills and strategies to avoid errors. Sandra also serves as the Assistant Director of Research at the Centre for Simulation Based Learning.

The Learning Objectives for this seminar are;

1. engage in critical discussion about current conceptualizations of clinical reasoning
2. evaluate current strategies for the assessments of clinical reasoning
3. plan new (or refine existing) strategies for teaching clinical reasoning

This Group Learning program meets the certification criteria of the College of Family Physicians of Canada and has been certified by the Continuing Education and Professional Development Office at the Northern Ontario School of Medicine for up to 1 Mainpro+ credits.
