You are invited to participate in the

Making it Work

Remote Rural Workforce Stability Forum

January 15, 2019 from 9:00 a.m. to 5:00 p.m.

at the Northern Ontario School of Medicine in Sudbury, Thunder Bay
and online across Northern Ontario and Nunavut.

The Making it Work (MiW) Framework is the result of a seven-year international collaboration with partners from five northern periphery countries: Norway, Sweden, Canada, Iceland and Scotland. This forum, taking place concurrently in all five countries, will present the MiW Workforce Stability Framework and related practical tools for administrators and recommendations for regional and national investments in workforce development. In addition, updates will be provided on Summit North and the resulting action plan, the Queensland Knowledge Share project, and the introduction of a Sustainability Plan for use across Northern communities.
