Dr. Wendy Churchill, PhD (UNB) has research interests that include the influence of professional, social, and moral codes on patient-practitioner relationships in Britain & its empire from the seventeenth through early nineteenth centuries.

This Group's Learning program meets the certification criteria of the College of Family Physicians of Canada and has been certified by the Continuing Education and Professional Development Office at the Northern Ontario School of Medicine for up to 1.0 Mainpro+ credits.

NOHHMG

The Northern Ontario History of Health and Medicine Group links students, faculty, researchers, practitioners, staff and interested individuals from across the North and beyond from a range of disciplines/ professions. It is open to the public.

VISUAL: EYTINGE, SOL, JR., (1833-1905), VACCINATING THE POOR. NLM

Learning Objectives: Demonstrate knowledge of the history of patient-practitioner relationships in the British Empire, c. 1765-1830. Discuss research methods, sources, & results related to the history of the patient-practitioner relationship. Discuss and develop a wider critical perspective on the history of the patient-practitioner relationship that can help inform their perspectives on issues related to practice & relevant public debates.
