

NOSM COVID-19 Weekly Clinical Rounds

The Peltzman Effect: Unintended Consequences During a Global Pandemic

May 8, 2020

MODERATOR

- Sarah McIsaac Med, MBBCh, FRCPC (Assistant Professor)

PRESENTER:

- Ken Milne MD, MSc, CCFP-EM, FCFP, FRRMS (Adjunct Professor)
Schulich Medicine & Dentistry

DESCRIPTION:

We are facing unprecedented times in health care and medical education. The tsunami of Information relevant to clinical practice is overwhelming and changing almost daily. And we have now been called to face the challenges of teaching virtually. Still relevant, is exploring the principles of evidence base medicine along with strategies to critically appraise information in our rapidly changes times. How can the Peltzman effect explain the unintended consequences of our health care interventions during the COVID-19 pandemic.

TOPICS:

- Define: What is evidence based medicine?
- Identify Strategies to critically appraise evidence
- Describe the Peltzman effect and assess how this risk mitigation theory applies to COVID-19 Pandemic
