Spousal employment	https://www.pecpe.ca/
CLINICAL SERVICES	
Catchment area and demographics	11,500
Hospital description / services	<p>Notre-Dame Hospital https://www.ndh.on.ca/</p> <p>Notre-Dame Hospital is an accredited hospital of 44 beds, including 23 beds for registrants for medical care and 21 beds for chronic care. It has more than 160 employees and an annual operating budget of \$12.5 million.</p>
Primary Care model / clinic setup / allied health support	<p>The Acute Care Department is located on the top floor of the hospital (3rd floor). Most patients on this unit are admitted from the Emergency Department and the Operating Room, while others are transferred from other hospitals. Patients are admitted to the Acute Care Floor for treatment and/or monitoring of a medical condition and can expect a short stay.</p> <p>The philosophy of the Continuing Care Unit is to assist clients in maintaining the highest level of independence possible. Patients/residents are supported and encouraged to make every effort to carry out their activities of daily living, including making their own bed,</p>

	<p>dressing, bathing, attending social functions, and move with as little assistance as is necessary.</p> <p>The Continuing Care Unit has 21 beds and is located on the second floor of the hospital. Decisions regarding patient/resident accommodations are made on a needs basis. The unit has a dining room, large outdoor gazebo, TV-lounge room, and a hair-dressing room for clients to use. A monthly activity calendar is posted on the unit, with a variety of activities for patients/residents to enjoy.</p> <p>Allied Health Support See: https://www.esfnafht.ca/</p>
