CLINICAL SERVICES	
Catchment area and demographics	Kenora, Ontario has an approximate census population of 15,500 with a service area population of approximately 30,000. Approximately 25% of the census population identifies as First Nations, Metis or Inuit.
Hospital description / services	<p>The Lake of the Woods District Hospital meets the immediate healthcare needs of residents of the City of Kenora, as well as a large surrounding area, including several First Nations Communities. In recognition of the First Nations communities that it serves, the hospital is committed to ensuring that traditional native healing and culture are part of native health care, including a unique Native Healer Program that recognizes the spiritual component of aboriginal health care.</p> <p>The Hospital's core programs include emergency and ambulatory care, chronic care, mental health, maternal and child health, and acute care services which include general medicine, intensive care and surgical services. It also manages a broad range of services including dialysis, chemotherapy, diagnostic imaging, mammography, ultrasound, addiction counseling and detoxification, a sexual assault centre, physiotherapy and rehabilitation services, ambulance (land and dedicated air), palliative care and various education programs.</p> <p>Our goal is to provide high quality patient care within the limits of our resources. Our healthcare team is made up of a wide range of dedicated, expert individuals who work along with your physician to provide you or your loved one with the best possible treatment. We are a fully accredited hospital under the national standards of Accreditation Canada.</p> <p>Address 21 Sylvan St. Kenora, Ontario, P9N 3W7 (807) 468-9861 Healthcare Kenora</p>
