

## **HAND AND UPPER LIMB CLINIC**

The Thunder Bay Hand & Upper Limb Clinic is a multi-disciplinary private facility treating all hands, elbow, shoulder injuries throughout a region of over 250,000 people. Our clients are 80% post-operative, usually more complex conditions requiring specialized skills including: wound care, splinting, manual therapy techniques, and sensory-motor assessment. Close communication with surgeons, of which we have a group of 5 who operate exclusively on the upper limb, is required.

As a new Occupational Therapist in our clinic, you would be embarking on a challenging career trajectory. We will help you become an incredibly important member of the team, two Occupational Therapist's (including a Certified Hand Therapist), two Physiotherapist's, and surgeons. Monthly education rounds, participation in a WSIB Specialty Clinic, ongoing continuing education, and a generous benefits plan are all included.

You will have a Master's degree in Occupational Therapy and accredited to work in Ontario. We require your services within the next 2 months. Our group will be excited to mentor new grads with less than one year's experience as well.
