Dr. Diana Urajnik- Town Hall Facilitator

Research Director, Centre for Rural and Northern Health, Laurentian University

Health care access challenges are experienced by communities throughout Ontario; however, certain access challenges are uniquely exacerbated in rural, remote and Northern Ontario. They stem from multiple factors: geographic remoteness, long distances, low population densities, and less availability of other providers. This Town Hall will discuss some of the challenges and solutions that being explored in Rural and Northern research topics.
