

Health Research Town Hall

Children, Youth and Families

Promoting growth, development, and success through health and social care

Tuesday, March 9 · 8 – 9 a.m

Via Zoom: click [here](#) to join. All are Welcome!

Kelly Meservia-Collins - Town Hall Facilitator

Executive Vice-President, Research, Quality and Academics, TBRHSC/TBHRI

Psychological, social and physical factors influence the growth and development of children and youth. Furthermore, family is a primary context for development and is a key element to successful interventions for children. Through collective efforts, our community network aims to promote the development and improvement of the health and well-being of children through research. After all, investing in our children, is investing in our future!

Dr. Nancy Young
