FIRST NATION COMMUNITIES SERVED BY CLINICIANS

Constance Lake First Nation

COMMUNITY DESCRIPTION

POPULATION AND DEMOGRAPHICS

Population: 5,104. More demographic information can be found [here](#).

AMENITIES

[2018-Community-profile.pdf](#)

TRAVEL OPTIONS

Accessible by road. Nearest airport is in Timmins, 266 km away

HOUSING/ACCOMMODATION

Many houses for sale are all sold privately. Being a small community, not many people use realtors. The option is there with Remax to help with the purchasing.

Four apartments are available for locums

PRIMARY CARE MODEL / CLINIC SETUP / ALLIED HEALTH SUPPORT

The philosophy of the Continuing Care Unit is to assist clients in maintaining the highest level of independence possible. Patients/residents are supported and encouraged to make every effort to carry out their activities of daily living, including making their own bed, dressing, bathing, attending social functions, and move with as little assistance as is necessary.

The Continuing Care Unit has 21 beds and is located on the second floor of the hospital. Decisions regarding patient/resident accommodations are made on a needs basis. The unit has a dining room, large outdoor gazebo, TV-lounge room, and a hair-dressing room for clients to use. A monthly activity calendar is posted on the unit, with a variety of activities for patients/residents to enjoy.

Allied Health Support
