# Welcome to Residency

MD Financial Management (MD) exists to help Canadian physicians and their families achieve their financial goals.

As you begin residency you may find yourself facing exciting and new aspects of medicine: clinical rotations, increased responsibilities, as well as finding work-life balance. With this transition you will also find yourself shifting to a new financial situation as you face debt accrued in medical school, while beginning to manage a salary. MD is here to help guide you towards financial wellness. Our team is happy to meet one-on-one as requested to help educate you on financial literacy as well as provide personalized support and advice.
