Dr. Lydia Wytenbroek (PhD, BSN), faculty UBC Nursing, is an historian of health and medicine. Her research interests include the histories of American nursing imperialism in the Middle East, medical racism, perioperative nursing in Canada, nursing technological innovation, and the politics of health care.

This activity meets the certification criteria of the College of Family Physicians of Canada and has been certified by the Continuing Education and Professional Development Office at NOSM University for up to 1 Mainpro+® Certified Activity credits

NOHHMG

The Northern Ontario History of Health and Medicine Group links students, faculty, researchers, practitioners, staff and interested individuals from across the North and beyond from a range of disciplines/professions. It is open to the public.

Learning Objectives: Demonstrate knowledge of the history of nursing. Discuss research methods, sources & results related to the history of nursing. Discuss & develop a wider critical perspective on the impact of perspectives of the history of nursing that can help inform their perspectives on issues related to practice & relevant public debates.
