

PHYSIOTHERAPIST (PART-TIME)

At Move Physiotherapy our core value is health & happiness through movement & motivation. We believe in the healing power of manual therapy and movement science to help people function as optimally as possible.

Our goal is to be Rayside Balfour's preferred physical rehabilitation clinic and to provide timely one-on-one care to all community members in need of physical rehabilitation.

Move Physiotherapy is seeking a licensed physiotherapist, for 20-30 hrs per week.

- Hours do not include weekends, but 1-2 afternoon shifts are required per week.
- We offer a split fee compensation rate, annual continuing education credit, & college registration fees reimbursed.
- We like to teach and contribute to our community and frequently have students on placement with us.
- Barley Hops, the friendly Bernedoodle, is often onsite.
- We have no administrative support so cleaning, booking, and billing is completed by the therapist between each visit. We use the JaneApp software and Beny AI phone answering services.
- Private pay patients and Health Science North total joint replacement patients, and do not currently accept WSIB or MVA.
